

Code Enforcement

FundView Code Enforcement provides comprehensive case management for code violations including inspections, notifications and administration.

FundView Code Enforcement is a web-based code enforcement solution that manages all phases of the code enforcement process. Customizable violation types with user-defined inspection and notification templates.

FEATURES & BENEFITS

- Create cases with template-driven inspection/notification procedures
- Log all communications/correspondence with violator; task console for easy scheduling
- Track liens on cases that involve enforcement costs
- Share common property/contact master files with all land based FAST solutions & GIS
- Integrated document processing for letters, notifications and certificates
- Attach unlimited inspection images, documents and notes to support case history
- Mobile inspection capabilities using web-enabled smart device

The screenshot displays the FundView Code Enforcement web application interface. The header includes the FundView logo, a navigation menu, and user information (Hi, admin@daingerfield). The main content area is titled "Cases" and features a table with columns for Case #, Violator, Location, Vehicle, Violation, Status, Status Date, Notes, Attachments, and Edit. The table lists 15 cases, each with a plus sign in the first column and a gear icon in the last column. A "Close" button is visible in the bottom right corner of the table area.

Case #	Violator	Location	Vehicle	Violation	Status	Status Date	Notes	Attachments	Edit
+ 18-00010	Angela Williamson	1302 S. Nueces Street		High Grass and Weeds	Opened	3/25/2018	0	0	⚙️
